SECTION ONE - INTRODUCTION AND BACKGROUND

1.1 INTRODUCTION AND BACKGROUND

The Judiciary, State of Hawaii invites your company to submit a written proposal to provide Sun Solaris System Administration, Windows Server Administration, and Oracle Database Administration: Consultation, Installation, Configuration, Maintenance, and Monitoring Services to the staff of its Information Technology & Communications Division (ITCD), Court Systems and Services Branch (CSSB).

The Information Technology & Communications Division (ITCD) is the central agency responsible for servicing the information technology needs of the Judiciary, State of Hawaii. The Judiciary has courts on islands of Hawaii, Maui, Lanai, Molokai, Oahu, and Kauai with multiple courts and offices on the majority of them. Supported applications range from basic office automation functions like word processing, e-mail, and electronic spreadsheets, to large, complex case management systems. The computer hardware required to run these applications also falls under the purview of ITCD and is equally diverse with hardware platforms running the gamut from mainframe to mini to microcomputer workstations and servers.

The Court Systems and Services Branch (CSSB) is responsible for the Court-related applications and server hardware upon which the applications execute. CSSB is wholly responsible for the IBM Mainframe which supports the Court's Criminal, Civil, and adult Family applications systems. CSSB is also responsible for the daily operation of the Judiciary's new application, the Judiciary Integrated Management System (JIMS). And it is the support of the JIMS hardware, software and database that this RFP addresses.
